

22 March 1956

Mr. John T. Campbell, Head  
BBC Monitoring Service  
Caversham Park  
Reading, Berks.  
England

STAT

Dear John:

[ ] returned at the beginning of this week and before getting into his report writing and many other details needing attention he has told me of your desire to conclude plans for meetings for the balance of the year.

I believe that holding the regular Coverage Coordination meeting at Kyrenia in June is a good plan and if the fall Coverage Coordination meeting can be held off until October at which time you will have returned from holiday, I believe, we could then have that meeting coincide with our Joint Coordinating Committee meeting. I would undertake to come to Caversham at that time.

There are only a few subjects which I feel need further consideration by us in joint session, but in some ways I believe these are very important and resolution of them by correspondence would be extremely difficult.

If this plan seems satisfactory, please let me know and we will proceed on that basis. I expect that you will be very busy and, therefore, if you would just have [ ] notify me by message it will be quite satisfactory.

STAT

Sincerely,

STAT
